

PLANT MANAGEMENT PLATFORM

The Enterprise Solution For Plant
Production, Quality, & Compliance

IMPROVE YIELD

Leverage real-time SPC and operational data on the plant floor with mobile, workstation, and web applications to make better, faster decisions that reduce waste and rework.

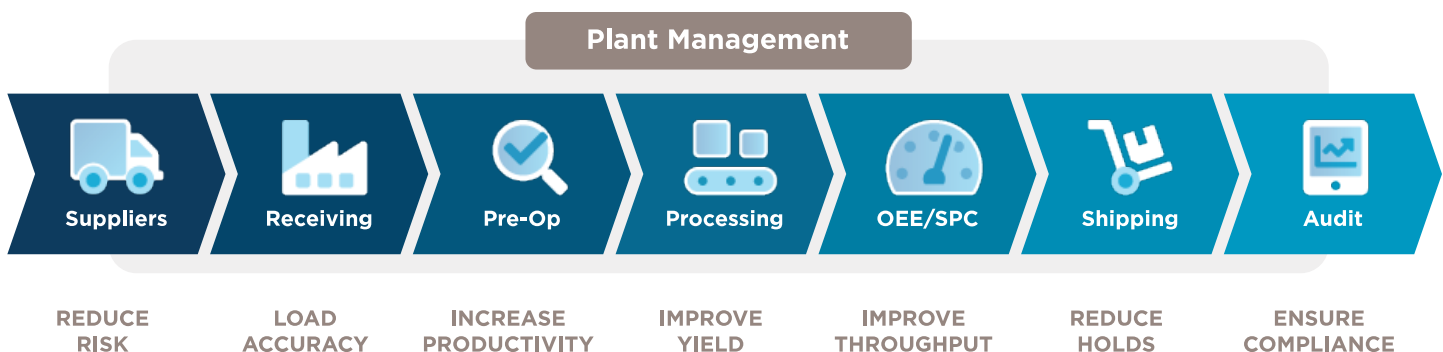

MAXIMIZE PRODUCTIVITY

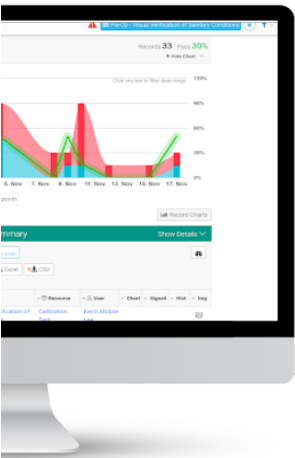

Monitor and identify production issues to improve on-time startups and reduce unplanned downtime with real-time OEE and maintenance data across every line, shift, and plant.

ENSURE COMPLIANCE

Digitize your safety and compliance programs with easy-to-use mobile forms linked to your regulatory programs to eliminate paper, automate your audits, and ensure compliance.

Put The Performance Of Your Plant In The Palm Of Your Hand

Quality Management Software (QMS)

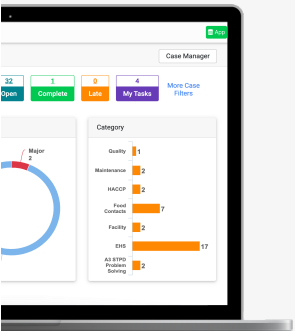

Quality Management Software gives operators and managers control over their programs by making safety and quality data instantly accessible from any device.

Achieve ongoing compliance with regulatory, customer, and third-party certification (ISO, SQF, BRC, FSSC-22000, HACCP, and more) requirements with SafetyChain.

- ✓ Record Sign Off & Reporting
- ✓ Document Repository
- ✓ Quality Manager Dashboard
- ✓ Program Management (ISO, GFSI, SQF, FSSC, BRC, HACCP)

Environmental Health & Safety (EHS)

Managing a plant must include comprehensive risk mitigation across all facilities. Leave behind the guesswork and hassle of doing EHS on spreadsheets, paper forms, and email. Automate data capture, review, and analyze incoming EHS data and create data-driven actions and processes with SafetyChain.

- ✓ Risk Management
- ✓ Corrective Actions
- ✓ MSDS Document Repository
- ✓ Reporting, Dashboards & Analysis

Supplier Management

Supplier compliance is critical to reducing risk, ensuring quality, and meeting customer expectations, but the activities involved can be tedious and time-consuming. Know how well each supplier is performing, instantly. Increase visibility into your supply chain without the hassle, all while making it easier for your trusted partners.

- ✓ Supplier Compliance & Scorecard
- ✓ Document Tracking & Alerts
- ✓ Supplier Audit Management
- ✓ Supplier Risk Assessment

Scan for details

- ✓ Integrated OEE Dashboard
- ✓ Real-Time Spec Verification
- ✓ Shift & Line Comparison
- ✓ Equipment Maintenance

Scan for details

Overall Equipment Effectiveness(OEE)

OEE software helps you understand the full story about how your operations are running. SafetyChain takes the hassle out of tracking and trending data from equipment, PLCs, SCADA, and sensors and enables you to always have a pulse on your plant's operations.

- ✓ Real-time SPC Dashboards
- ✓ Trend Analysis
- ✓ Process Control Charting
- ✓ Manual or Automated Data Collection

Scan for details

Statistical Process Control (SPC)

SPC Software maximizes productivity and minimizes costs with real-time data visibility across the plant. SafetyChain automates quantitative data collection and leverages quality tools like control charts to enable real-time process monitoring, empowering operators to step in and address issues before costly non-conformances occur.

- ✓ Preventative Maintenance
- ✓ Continuous Improvement
- ✓ Scheduling, Notifications, & Sign-Off
- ✓ Reduce maintenance costs

Maintenance

Maintaining your equipment is critical to preventing unplanned downtime and optimizing operations. SafetyChain automates data capture from equipment, PLCs, SCADA, and sensors to guide maintenance activities and decisions. Inform operators and technicians with configurable alerts to capture information, including photos, and return lines to service rapidly.

Proven Platform. Proven Partnerships.

"Now that we have SafetyChain, our team can't wait until our next audit!"

"In solving our paper problem we actually ended up solving a much bigger business problem with SafetyChain."

"SafetyChain trends data and allows us to configure reports without any add-on costs or technical abilities. For us, it was a better fit."

About SafetyChain

SafetyChain is the #1 Plant Management Platform that improves yield, maximizes productivity, and ensures compliance for process manufacturers. Trusted by over 1,500 facilities, SafetyChain is the only enterprise solution uniting production, quality, safety, and supplier management.
