Features

Suppliers

Easily manage compliance requirements and documentation for up to 100 suppliers, with the option to expand as your supplier network grows.

Supplier Portal

Give suppliers a secure, self-service portal to upload and manage their own compliance documents.

Supplier Requirements Dashboard

Define and track compliance requirements to ensure all necessary documentation is complete and up-to-date.

Automated Tasks, Notifications, & Workflows

Set automated reminders and workflows to keep suppliers on track and ensure timely actions.

Supplier Document Repository

Access and track all supplier documents in one centralized location.

Compliance Risk Assessment

Evaluate supplier risk with real-time insights into compliance performance and other key factors.

Supplier Dashboard & Scorecards

Monitor supplier compliance in real-time with a clear view of outstanding requirements and performance metrics.

Customizable Supplier Reporting

Create reports to track supplier compliance trends and tailor them to meet your unique needs.

“SafetyChain is a proactive tool. Some of our suppliers ask us, ‘How are we doing?’ and it’s easy for us to take a look and say, ‘... Right now you’re good, but 3 documents are going to expire in 60 days.’

So, we’re staying ahead of that curve. It used to be that we would wait until documents expired and then chase them down to get it.”

Scott Lane, CLTD
CIO, Beaver Street Fisheries

About SafetyChain

SafetyChain is a digital plant management platform trusted by more than 2,500 food and beverage manufacturing facilities to improve plant-wide performance. It unifies production and quality teams with data and insights, tools, and delivers real-time operational visibility and control by eliminating paper and point solutions.
